Professional Summary
Senior Full Stack Engineer with 5+ years of experience designing scalable distributed web platforms, high-performance customer-facing interfaces, and secure backend microservices. Skilled in React, Next.js, TypeScript, Python, and PostgreSQL.

Technical Skills
? Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux, HTML5, CSS3
? Backend: Python, FastAPI, Node.js, Express.js, REST API, WebSockets
? Databases: PostgreSQL, MongoDB, Redis, SQLite
? Cloud & Tools: Docker, AWS, Git, CI/CD, GitHub Actions, Pytest, Agile

Work Experience
Senior Full Stack Developer | MetroByte Financial (2022 - Present)
? Led frontend and backend development for a real-time portfolio analytics dashboard using React, TypeScript, Next.js, and Tailwind CSS.
? Built asynchronous data aggregation microservices in Python using FastAPI and PostgreSQL, serving 500,000 active traders.
? Implemented Redis caching and optimized complex SQL joins, reducing API response times from 450ms to 65ms.
? Established CI/CD deployment pipelines on AWS ECS with Docker containers and automated Pytest integration suites.

Full Stack Web Developer | CloudSphere Tech (2020 - 2022)
? Developed responsive user interfaces using React and Redux with end-to-end REST API integration.
? Maintained Node.js microservices and MongoDB storage for an enterprise collaboration tool.
? Integrated third-party OAuth and Stripe payment processing workflows.

Key Projects
? CryptoPulse Dashboard: Real-time cryptocurrency monitoring application featuring WebSocket streaming, React charts, and FastAPI backend.
? TaskMaster Pro: Multi-tenant project management platform built with Next.js, Prisma, and PostgreSQL.

Education
Bachelor of Science in Software Engineering
New York University (NYU) | 2016 - 2020
